

**SUPPLEMENTARY FIGURE 22.** Group A: TNF-α levels at the control group.

**SUPPLEMENTARY FIGURE 23.** Group B: TNF-α levels at the Study group which Lazaroid was given at 30 minutes of acute myocardial ischemia.

**SUPPLEMENTARY FIGURE 24.** Group C: TNF-α levels at the Study group which Lazaroid was given before acute myocardial ischemia.

**SUPPLEMENTARY FIGURE 25.** Group D: TNF-α levels at the Study group which Sildenafil was given at 30 minutes of acute myocardial ischemia.

**SUPPLEMENTARY FIGURE 26.** Group E: TNF-α levels at the Study group which Sildenafil was given before myocardial ischemia.

**SUPPLEMENTARY FIGURE 27.** Group F: TNF-α levels at the Study group which Combination sildenafil and lazardoid was given at 30 minutes of acute myocardial ischemia.

**SUPPLEMENTARY FIGURE 28.** Group G: TNF-α levels at the Study group which Combination sildenafil and lazardoid was given before myocardial ischemia.
